

10th Foundation Day Ceremony
of
THE SOCIETY OF EARTH SCIENTISTS
17TH April, 2018 Lucknow

The Society of Earth Scientists (SES) organized its 10th Foundation Day ceremony on 17th April 2018 at Department of Geology, University of Lucknow, Lucknow. SES was founded on 17th April 2008 and successfully contributed towards the scientific community and people at large. The programme was chaired by Sri Somnath Chandel, Additional Director General and HoD, Geological Survey of India, Lucknow. The Foundation Day lecture was delivered by Prof. Vladimir N Sergeev, Institute of Geology, Russian Academy of Sciences, Moscow, Russia on *'Large Ediacaran microorganism remains from East European and Siberian platforms'*.

Prof. Mukund Sharma, President, SES, welcomed the participants and presented the brief about the journey of SES through last TEN years. He elaborated the achievements of the Society and explained the future planes. Dr. (Mrs.) Purnima Srivastava introduced the speaker and requested him to deliver the lecture. Prof. Sergeev, in his one-hour long lecture provided recent researches on large Ediacaran microorganisms with special reference to East European and Siberian platform. The lecture was widely received by learned audience. Chairman Sri Chandel appreciated the work done by the SES within a very short period of times and wished all success for future programmes. The ceremony was ended by vote of the thanks by Prof. Rameshwar Bali, Vice President, SES. The

programme was attended by the scientists and academicians from GSI, BSIP, Lucknow University, BBAU.
