

THE SOCIETY OF EARTH SCIENTISTS (SES) **11th SES Foundation Day Ceremony**

The Society of Earth Scientists (SES) was founded on 17th April 2008 to bring scientists of all the domains of earth science at single platform. SES was successful in its endeavour. SES organized its 11th Foundation Day on 18th April 2019 jointly with Birbal Sahni Institute of Palaeosciences, Lucknow. The programme was organized at the conference hall of BSIP, Lucknow. Geoscientists of Geological Survey of India, BSIP, University of Lucknow, Babasahib Bhimrao Ambedkar University along with several veteran geoscientists attended the ceremony. Prof. Mukund Sharma, President, SES and senior scientist, BSIP welcomed the guests and presented about the progress of the society, Dr. Rameshwar Bali, Vice President, SES and Head, Department of Geology, University of Lucknow proposed vote of thanks. Foundation Day lecture was delivered by Dr. Rajiv Nigam, National Institute of Oceanography, Goa on "*Why and how micropaleontology (foraminifera) emerging as excellent tool to monitor pollution?*" Dr. Vanketesh Dutta, Joint Secretary and Asso. Prof, BBAU, Lucknow introduced the invited speaker Dr. Nigam. Dr. Rajiv Nigam delivered illustrative talk on foraminifera as a tool to monitor pollution which was widely appreciated. Dr. Nigam also replied to the queries of the audiences.
